

Initial features:

shared study spaces ,

AI-powered Q/A(limited).

Depends on size (1MB = 1000 token)

Question type: 10 questions = 100 token.

Daily limit = 10000 tokens.

Team Limit = 15000 tokens

Premium

plus: AI-Powered Q & A (limit increased)
Flashcard , Quiz (5 documents/24hrs)
Voice input (5 Times/24hrs)
messaging.

Pro: Same as plus,
Smart tutor enable (AI based teaching help)
Image search, process.

COST STRAUCTURE

Cost Category	Details	Estimated Cost (BDT)
🔗 Product Development	Web platform (React/Next.js), backend (Node.js), collaborative editing	₹150,000 – ₹180,000
🔗 AI API Integration	OpenAI / Gemini API (capped monthly use, caching implemented)	₹100,000 – ₹120,000
🔗 Mobile Optimization	Testing across low-end Android devices, responsive UI	₹40,000
🔗 User Testing & Surveys	Stipends for pilot users, campus feedback rounds	₹20,000
🔗 Hosting & Infrastructure	Vercel, MongoDB Atlas, Cloudinary (mostly free tier, paid extras)	₹30,000 – ₹40,000
🔗 Authentication & Security	Firebase Auth / custom login, user data privacy handling	₹20,000
🔗 UI/UX Design & Branding	Designer fees (local), logo, app mockups, brand kit	₹50,000 – ₹60,000
🔗 Outreach & Promotion	Facebook boosting, posters, club partnerships, campus reps	₹50,000
🔗 Academic Advisor Stipend	Honorarium for mentor/institutional guide	₹15,000
🔗 Team Honorarium (modest)	Token support for 5 founders over 12 months	₹150,000 – ₹180,000

Fixed cost = 6,25,000 - 7, 25,000

Monthly Ops Fixed Cost: 2,500 – 9,000

Variable cost:**Human resources**

Item	Unit	Cost Estimate (BDT)	Notes
Developer (Mid-level)	Per person/month	40,000 – 70,000	One full-stack or two part-time frontend/backend devs
AI/ML Engineer (optional)	Per person/month	60,000 – 90,000	Only needed if building custom models later
Content Moderator/Support	Per person/month	8,000 – 12,000	For university onboarding and support
UI/UX Designer (part-time)	Per person/month	15,000 – 25,000	Design iterations, testing

Infrastructure

Item	Unit	Cost Estimate (BDT)	Notes
Hosting (VPS or cloud)	Per month	2,000 – 5,000	Linode/Singapore VPS or ExonHost BD
Database (MongoDB/Supabase)	Per month	2,000	Free tier for MVP; scales later
OpenAI API (GPT-4)	Per 1,000 queries	2,000 – 10,000	For Q&A, flashcard, quiz generation
File storage (Cloudinary/Firebase)	Per GB/month	2 – 5 per GB	Notes, PDFs, images
Voice API (Daily/Twilio)	Per minute/user	1 – 3 per min	Only used during voice group sessions
Realtime infra (Socket.IO/Pusher)	Per 10,000 connections	1,000 – 3,000	Depends on scale and provider

Operational cost

Item	Unit	Cost Estimate (BDT)	Notes
Office Rent (co-working / shared)	Per month	10,000 – 25,000	Optional: team can be remote
Internet + Utilities	Per month	2,000 – 4,000	Required if operating physical space
Local Marketing & Ads	Per month	5,000 – 15,000	Facebook boosting, poster design, etc.
Institutional Outreach/Events	Per event	10,000 – 30,000	Club event sponsorships, booths

Summary

Category	Starting Estimate (BDT)	High-End Estimate (BDT)
Human Resources	70,000	180,000
Infrastructure & Tools	5,000	20,000
Rent & Operations	12,000	30,000
Marketing & Outreach	5,000	20,000

CollabLearn.AI - Monthly & Annual Cost Breakdown		
Category	Monthly Cost (BDT)	Annual Cost (BDT)
Human Resources (Team)	120000	1440000
Infrastructure & Hosting	12000	144000
AI API Usage	8000	96000
File Storage & Bandwidth	3000	36000
Voice API (Real-Time Group Calls)	2000	24000
Marketing & Outreach	10000	120000
Community Events & Sponsorship	8000	96000
Customer Support & Moderation	6000	72000
Office & Utilities	15000	180000
Contingency (10%)	18500	222000

CollabLearn.AI - Scaling Revenue Plan

Plan	Monthly Price (BDT)	Target Users (Year 1)	Monthly Revenue (BDT)	Annual Revenue (BDT)
Free Tier (Students)	0	5000	0	0
Premium Tier (Individuals)	99	500	49500	594000
Institutional Tier (Universities)	5000	20	100000	1200000

First step:
make an editor that uses AI, for students that study in groups.
